■ AZ-104 Azure Administrator Associate	■ AZ-305 Azure Solutions Architect Expert	■ CNSP Network Security Practitioner
--	---	--------------------------------------

PROFESSIONAL SUMMARY

Azure Cloud & DevOps Engineer with dual Microsoft certification and hands-on internship experience building production-grade cloud infrastructure. Delivered 28+ real-world projects spanning Kubernetes, GitOps CI/CD, Terraform IaC, and AI/ML integration on Azure. Active Bengali-language Cloud & DevOps content creator (YouTube, 1K+ subscribers). Seeking Junior/Associate Cloud or DevOps Engineer roles — remote or on-site.

TECHNICAL SKILLS

Cloud & IaC: Azure (VMs, VNets, AKS, Functions, OpenAI, Monitor), Terraform, Helm, Bicep	AI & Data: Azure OpenAI GPT-4, Microsoft Fabric (MLOps), Flask, Streamlit
DevOps & GitOps: Kubernetes, Docker, Jenkins, Argo CD, GitHub Actions, CI/CD Pipelines	Serverless: Azure Functions, MCP Server, Serverless API design
Observability: Prometheus, Grafana, Azure Monitor, Log Analytics, HPA, Auto-scaling	Languages & OS: Python, Bash, Linux (Ubuntu/RHEL), Windows Server, WSL2

PROFESSIONAL EXPERIENCE

DevOps Engineer — Internship InNeed Intelligent Cloud · Bangladesh · On-site	May 2025 – Sep 2025
- Deployed Azure infrastructure (VMs, VNets, NSGs, Storage) and managed RBAC via Microsoft Entra ID. - Provisioned IaC using Terraform across multiple environments; automated VM lifecycle with scripts. - Containerised apps with Docker & Kubernetes (Minikube); built CI/CD pipelines with Jenkins, Argo CD & GitHub Actions. - Automated configuration management and app deployment using Ansible.	

KEY PROJECTS (Selected from 28+ Builds)

■ AI-Powered Kubernetes Self-Healing System Tech: AKS · Python · Azure OpenAI GPT-4 · Prometheus Autonomous healing system detecting pod failures via Prometheus & GPT-4. Reduced manual intervention by 70%.	■ ZeroTouch Azure DevOps Automation Tech: Terraform · Ansible · GitHub Actions · AKS Single git push provisions infra, configures VMs & deploys containers end-to-end. 100% automated.
■ Production CI/CD — Jenkins + Kubernetes + Argo CD Tech: Jenkins · Argo CD · Docker · Blue-Green Deploy GitOps CI/CD with blue-green rollout. Reduced deployment time from 2 hours to under 10 minutes.	■ AI Resume Analyzer Tech: Azure OpenAI GPT-4 · Streamlit · Azure VM GPT-4 powered resume scoring tool deployed as live Streamlit app. Reduced HR screening time by 60%.
■ Monitoring & Auto-Scaling Platform Tech: Prometheus · Grafana · Kubernetes HPA · AKS HPA triggered by custom metrics; reduced traffic-spike downtime by 80%. Used by 5-member SRE team.	■ Terraform Azure Infra Automation Tech: Terraform · VMs · VNets · AKS · RBAC Modular IaC across 4 environments. Reduced provisioning time from days to under 30 minutes.

EDUCATION & PUBLICATIONS

B.Sc. Computer Science & Engineering 2022 – May 2026	- Smart Contracts Vulnerabilities — <i>IEEE peer-reviewed, Apr 2025</i> - Cloud Computing for Healthcare — <i>Peer-reviewed book chapter, Nov 2025</i>
